

# 5-Waves chair series

Designed by ISKOS-BERLIN

for Harvest-One

2016

# harvest one

Harvest-One is a brand resulting from cooperation between the Danish design studio **ISKOS** — **BERLIN** and the Taiwanese office furniture manufacturer, Harvest Link International – the best of Danish design meets the best of Taiwanese industrial production.

The 5-Waves chair series is the first “harvest” of this fertile collaboration across seas, cultures, and traditions ...

## 5-Waves chair series

---

4

The 5-Waves chair series is designed with an extensive range of frames, offering a comprehensive product line for several segments of the contract market.

The main element of the 5-Waves chair design is its innovative injection-molded shell with dynamic seating comfort – supporting the body without restricting its movement.

5-Waves' shell has 5 zones, or "waves", each with its own distinct properties:

the first "wave" provides rigidity– it is purely structural;  
the second "wave" transitions between the structural zone and springy zones;

the third "wave" offers support for the pelvis and lower back;

the fourth "wave" provides springy dynamic support;  
the fifth "wave" is an elastic outer zone reducing unnecessary pressure on the soft tissues of the body.
